

JEYA SURYA B

Software Engineer | Full Stack Web Developer

Alangulam, Tenkasi, Tamil Nadu, India | +91 6379558565 | suryasivalai04@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Computer Science and Engineering graduate (2026) with a strong foundation in Data Structures, Algorithms, Object-Oriented Programming (OOP), Database Management Systems, and the Software Development Life Cycle (SDLC). Experienced in designing, developing, and deploying full stack web and AI-integrated applications using React.js, Next.js, Node.js, Express.js, JavaScript, and Python. Proficient in building RESTful APIs, implementing secure authentication, and managing relational and NoSQL databases including MySQL, MongoDB, and Firebase. Adept at developing responsive, scalable, and production-ready applications and deploying them on cloud platforms such as Vercel, Render, and Netlify. Strong analytical and debugging skills with a proven ability to write clean, maintainable code, collaborate effectively in cross-functional teams, and deliver solutions in Agile development environments. Seeking to leverage full stack development and problem-solving expertise as a Software Engineer / Assistant System Engineer.

TECHNICAL SKILLS

Programming Languages: JavaScript, Python, HTML5, CSS3

Frontend Development: React.js, Next.js, Tailwind CSS, Bootstrap, Responsive Web Design

Backend Development: Node.js, Express.js, Flask, REST API Design

Databases: MongoDB, MySQL, Firebase Firestore

Authentication & Security: Firebase Authentication, JWT Authentication

Cloud & Deployment: Vercel, Render, Netlify, Firebase Hosting

Developer Tools: Git, GitHub, VS Code, Postman, npm

Core Computer Science Concepts: Data Structures, Algorithms, Object-Oriented Programming (OOP), DBMS, Operating Systems, Computer Networks, SDLC, Version Control, SEO

PROJECTS

Smart Expense Tracker | [Live Demo](#)

Technologies: React.js, Next.js, Node.js, Express.js, MongoDB, Tailwind CSS

- Architected a full stack expense management application, building a React.js and Next.js frontend on top of a Node.js and Express.js REST API backend.
- Implemented secure, session-based user authentication and authorization to provide personalized access to individual expense data.
- Designed and built CRUD operations for income and expense records using MongoDB, applying schema validation to maintain data integrity.
- Developed an interactive analytics dashboard with dynamic charts to help users visualize spending trends and category-wise breakdowns.
- Engineered a fully responsive, mobile-first UI with Tailwind CSS for consistent usability across devices and screen sizes.
- Deployed and maintained the application on Vercel, configuring continuous integration for reliable, streamlined production updates.

Student Attendance Management System | [Live Demo](#)

Technologies: React.js, Node.js, Express.js, MongoDB

- Built a full stack attendance management system enabling faculty to record, update, and track student attendance in real time, replacing manual registers.
- Designed and implemented RESTful APIs with Node.js and Express.js to handle attendance data operations efficiently.
- Modeled a normalized MongoDB schema to store and query student, course, and attendance records reliably.
- Developed role-based UI views in React.js to streamline distinct workflows for administrators and faculty members.
- Deployed and hosted the application on Render, ensuring consistent uptime and accessibility for end users.

SYRA AI | [Live Demo](#)

Technologies: React.js, Next.js, Tailwind CSS, Firebase, AI API Integration

- Built an AI-powered web assistant that integrates third-party AI APIs to deliver real-time, context-aware responses to users.
- Implemented Firebase Authentication to provide secure sign-up, login, and session management.
- Engineered a responsive, modern interface using React.js, Next.js, and Tailwind CSS, following current UI/UX best practices.
- Optimized API request handling and frontend state management to ensure fast and reliable AI response rendering.
- Configured continuous deployment from GitHub to Netlify for streamlined releases and version control.

Sethu Farm | [Live Demo](#)

Technologies: React.js, JavaScript, HTML, CSS, Tailwind CSS

- Developed a bilingual (English/Tamil), SEO-optimized business website for an agricultural enterprise using React.js and Tailwind CSS.
- Applied on-page SEO best practices and integrated Google Search Console to improve search visibility and indexing.
- Built a fully responsive, mobile-first layout to ensure accessibility across all device types and screen sizes.
- Optimized page load performance and asset delivery to improve overall site speed and user experience.
- Deployed and configured the site on Netlify with a custom domain and an automated deployment pipeline.

Portfolio Website | [Live Demo](#)

- Designed and developed a personal developer portfolio to showcase technical skills, projects, and internship experience to recruiters.
- Built a responsive, modern layout to effectively present full stack development and AI project work.
- Hosted the site on GitHub Pages, maintaining a clean, version-controlled codebase.

INTERNSHIPS

AI Powered Full Stack Development Intern — Iconix Software Solutions, Tirunelveli

- Contributed to the design and development of full stack web applications, integrating AI-driven features into existing workflows.
- Built and consumed REST APIs to connect frontend interfaces with backend services and AI models.
- Debugged, tested, and optimized application code in collaboration with senior developers, following SDLC best practices.
- Used Git and GitHub for version control and change tracking within a collaborative, team-based development environment.

Web Development Intern — THE SKYBRISK

- Developed and maintained responsive web pages using HTML, CSS, JavaScript, and React.js.
- Translated UI/UX designs into functional, cross-browser-compatible web components.
- Participated in code reviews and applied feedback to improve code quality and maintainability.

CERTIFICATIONS

- Full Stack Development — Simplilearn

EDUCATION

Bachelor of Engineering, Computer Science and Engineering

Sardar Raja College of Engineering (Anna University)

Graduation Year: 2026 | CGPA: 7.80 / 10.00

LANGUAGES

Tamil — Native | English — Professional Working Proficiency
